

Simple and sustainable wooden chair

Lexie is a simple, functional, low-weight wooden chair. Ideal for canteens, cafeterias, libraries, group rooms and corridors, etc. Its natural, simple, yet well-thought-out expression makes the chair flexible and easy to place in different spaces. Thanks to its innovative design, it is also comfortable, sturdy and hard-wearing.

Lexie can also be suspended on tables to free up floor space and make cleaning easier. There is a soft suspension guard beneath the back arch that protects the table. The chair is lightweight, which makes it easy to lift when hanging on a table or stacking. It is made from renewable FSC® labelled wood, which guarantees responsible forestry with respect to both people and the environment. It is designed with minimal components, all of which can be separated and recycled, which makes Lexie circular and sustainable in the long term – both environmentally and economically. The product is also Möbelfakta labelled, which ensures good quality and a safe product.

The chair has an encircling moulded back arch, and is available with either a round or a square seat with soft corners. Square seats provide extra good support for the legs, and the shape is rounded and sloped at the front for ergonomic sitting. Upholstered seats are available as an alternative to a wooden seat. The back and seat are also available in durable laminate, which provides a high-quality chair with a long lifespan.

Unit mm, kg.

Functions & options

SUSPENDABLE

Lexie can be suspended on tables to free up floor space and make cleaning easier.

SUSPENSION GUARD

The soft guard beneath the back arch makes suspension quieter, protects the table surface and gives the chair some extra stability while suspended.

STACKABLE

Lexie is easy to stack, which creates easily rearrangeable spaces and provides space-efficient solutions.

ROUND SEAT

Select either a round or square seat. A round seat gives the chair a softer look.

SQUARE SEAT

Square seat provides extra support for the legs. The seat has soft corners and a rounded, sloping front edge for ergonomic sitting.

UPHOLSTERED SEAT CUSHION

The seat can be upholstered with any Kinnarps Colour Studio fabric, which also includes OEKO-TEX and EU Ecolabel options.

LAMINATE

The back and seat are also available in durable laminate, which provides a high-quality chair with a long lifespan.

ACOUSTIC PLATE

Add an acoustic plate under the chair for a better sound environment.

FELT GLIDE

If the chair is to be placed on hard flooring, adding felt glides under the legs will reduce scraping and provide a quieter acoustic environment.

Colours & materials

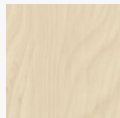

Kinnarps Colour Studio (KCS) is our range of materials for offices, schools and healthcare facilities, with a focus on sustainability, quality and harmony. It offers attractive materials that have been carefully tried and tested for suitability and sustainability in different types of spaces. The wide range makes it easy to find the look and functionality you want. Wood, metal, plastic and textiles, colours and patterns that are easy to mix and match with each other and the rest of the interior design. This is a well-thought-out range that provides a harmonised and sustainable overall impression and makes it possible to choose the right material and the right colour for the right place and activity.

Seat/back Veneer, laminate, lacquered and upholstered seat.

Underframe Moulded wood, available in lacquered finish.
