

Versatile and functional range of storage units

Space is a versatile and modular range of storage units designed for modern working methods and storage needs. Space creates inspirational and flexible spaces for individuals and teams.

These smart and well-designed modules are available in a wide choice of materials, colours and finishes. They can be connected and customised to your needs, based on the functionality and look you want.

Modern working environments require areas with a homely vibe in order to foster a sense of community. Space allows you to combine traditional workspaces with innovative solutions where materials, shapes and details provide a well-designed and 'home-at-work' feel.

Based on the working environment you wish to create, you select carcasses and how you want to combine them with the rest of the interior design. There are different interior options for the carcasses, such as shelves, drawers and dividers. The fronts are available in many versions and finishes, and there are several types of handles and underframes to choose from.

Choose materials from Kinnarps Colour Studio, a complete collection that gives you a wide choice of finishes.

Open cabinets

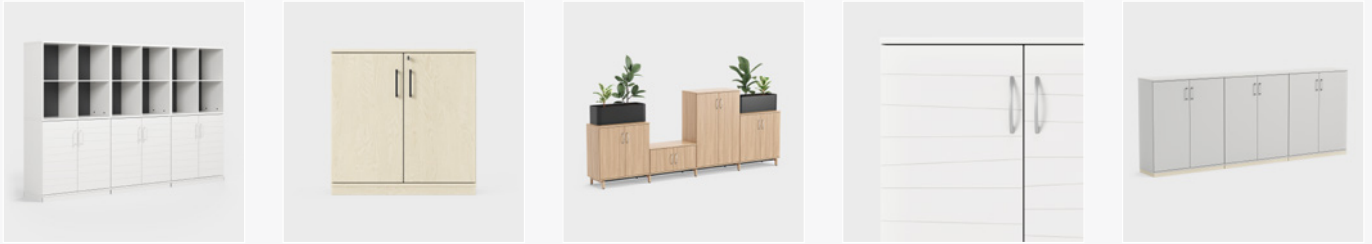

Practical open storage cabinet that offers a good overview of its contents. There is a wide choice of carcasses in different heights, widths and depths. You can connect modules together to extend the width or stack them on top of each other to extend the height. Select both an exterior and interior finish to get an organised and functional storage unit that's also a well-designed solution. There are several underframes to choose from, and leg reduction helps you get stylish, clean lines when several units are placed side by side. Choose from different materials and colours.

Height	Depth 400 mm				Depth 330 mm		
378 S1P							
	400	800	1000	1200			
756 S2P							
	400	800	1000	1200	1200	1600	800

* These modules in widths of 400, 800, 1,000 and 1,200 mm can also be wall mounted. All measurements excluding underframe.

Cabinet with doors

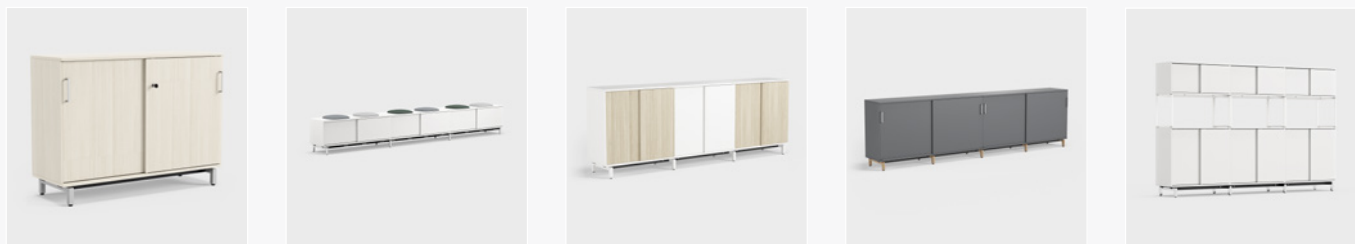

A practical cabinet with doors – our most popular storage solution. There is a wide choice of carcasses in different heights, widths and depths. You can connect modules together to extend the width or stack them on top of each other to extend the height. Select both an exterior and interior finish to get an organised and functional storage unit that's also a well-designed solution. The carcasses have concealed hinges for a cleaner look. The hinges also ensure soft, quiet closing of the cabinet fronts. Choose from different materials, colours and handles. Can also be combined with locks if necessary. There are several underframes to choose from, and leg reduction helps you get stylish, clean lines when several units are placed side by side.

	400	800	1000	

All measurements excluding underframe.

Cabinet with sliding doors

Practical cabinet with a sliding door. A sliding door saves space as it doesn't open outwards. It's ideal if there's limited space between the workstation and the storage unit. Choose between different materials, colours and handles. Can also be combined with locks if necessary. There is a large selection of carcasses to choose from in different heights, widths and depths. You can connect modules together to extend the width or stack them on top of each other to extend the height. Select both an exterior and interior finish to get an organised and functional storage unit that's also a well-designed solution. There are several underframes to choose from, and leg reduction helps you get stylish, clean lines when several units are placed side by side.

	800	1000	1200	1600
1134 S3P				
	800	1000	1200	1600

* These modules in widths of 800, 1000, 1,000 and 1,200 mm can also be wall mounted. All measurements excluding underframe.

Cabinet with tambour

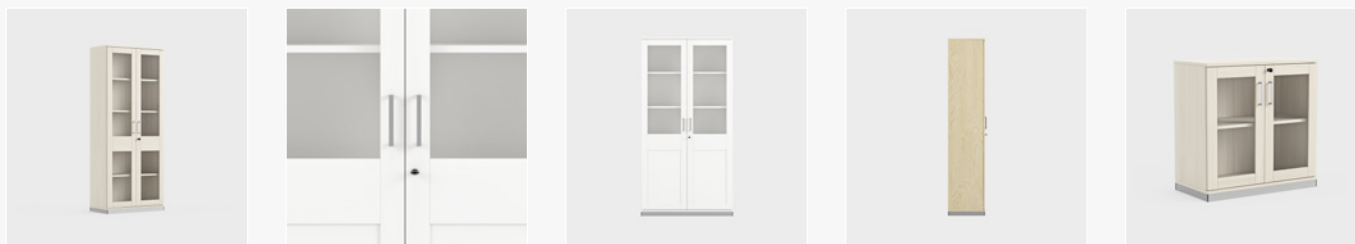

Practical cabinet with a tambour door. This means you can open the entire cabinet without any part needing to open outwards. This is ideal if you want a quick overview of what's in the cupboard. The door always runs horizontally with the handle in the middle of it for optimal ergonomics and convenient opening. The tambour door is available in selected veneers and laminates. The colour of the handle matches the colour of the slats. Can also be combined with locks if necessary. There is a large selection of carcasses to choose from in different heights, widths and depths. You can connect modules together to extend the width or stack them on top of each other to extend the height. Select both an exterior and interior finish to get an organised and functional storage unit that's also a well-designed solution. There are several underframes to choose from, and leg reduction helps you get stylish, clean lines when several units are placed side by side.

* These modules in widths of 800, 1000, 1,000 and 1,200 mm can also be wall mounted.
All measurements excluding underframe.

Cabinet with glass doors

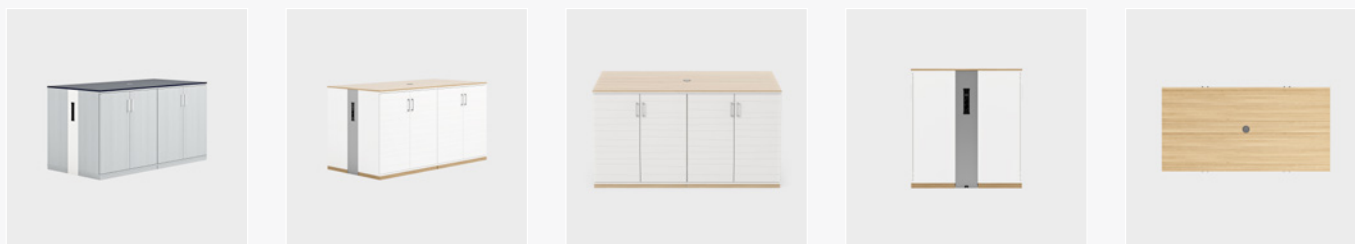

Practical and well-designed cabinet with a glass door. Glass doors allow you to see the contents of the cabinets without opening the doors. Ideal for keeping things visible without needing to worry about dust collecting. There is a large selection of carcasses to choose from in different heights, widths and depths. You can connect modules together to extend the width or stack them on top of each other to extend the height. Select both an exterior and interior finish to get an organised and functional storage unit that's also a well-designed solution. The carcasses have concealed hinges for a cleaner look. The hinges also ensure soft, quiet closing of the cabinet fronts. Choose from different materials, colours and handles. Can also be combined with locks if necessary.

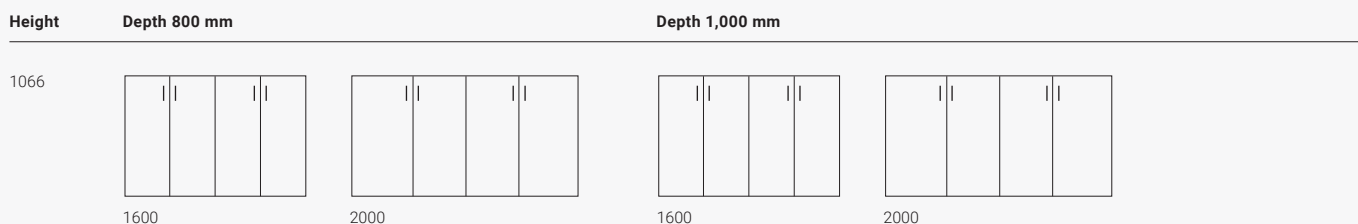

All measurements excluding underframe.

Space Island

Multiple cabinets connected by means of a wooden top. A multifunctional storage solution that also makes a practical standing meeting space or work surface. Can also be supplied with integrated power such as pop-up electricity for convenient power supply at your fingertips.

Dimensions including plinth 1,066 mm.

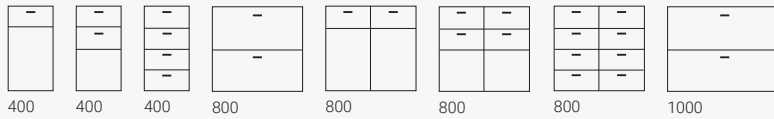

Cabinet with drawers

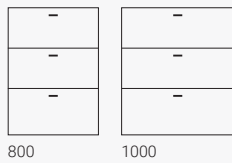

Practical storage cabinet with drawers. There is a wide choice of carcasses in different heights, widths and depths. You can connect modules together to extend the width or stack them on top of each other to extend the height. Select both an exterior and interior finish to get an organised and functional storage unit that's also a well-designed solution. Choose between different materials, colours and handles. Also combine with locks for safe storage.

SPOC – Space Pull Out Cabinets

SPOC (SPACE Pull Out Cabinets) can be used as a personal storage unit or as a storage unit that can be shared by two people (Duo). Available in different heights and lengths. Choose between single-sided storage and storage on both sides. The single-sided unit is reversible if, for example, you change the layout of the office. There is also a version with a built-in wardrobe for personal outerwear. Easy to pull out to find what you need before pushing it back in for functional and clean surfaces. SPOC is easy to pull out and has a stable design. The table-high version offers an additional work surface next to the desk and more space for personal storage than a normal pedestal. Thanks to the smart functionality of the taller SPOC, when you pull it out you also create your own space in an office landscape.

Height	Depth 800 mm	Depth 900 mm
739	 400	 400
1245	 400 400 Right 400 Left	 400 400 Right 400 Left

Functions & options

EMBOSSED DOOR

Wooden door with an embossed graphical pattern. Choose between different colours and handles. Can also be combined with locks if necessary.

A-MODULE

The A-module provides you with open and accessible storage. Perfect for the members of a team or project group, who will always have access to what they need close to their workplace or meeting table.

Q-FRAME

Metal frame available in two sizes and used in combination with selected carcasses. This allows you to create space in different combinations.

S-SHELF

A unit that is placed at height between built-up carcasses and acts as a connector to the next storage unit. A visible and attractive solution at eye level.

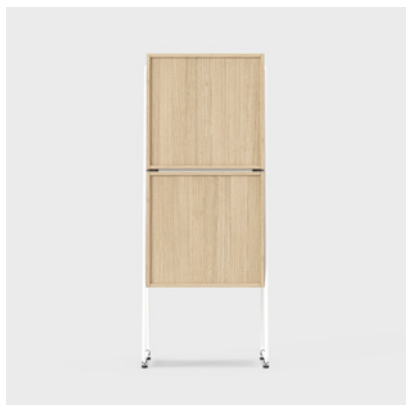

TOP

You can choose a Space Island top in different materials, sizes and colours for the carcasses. The top can be supplied with holes, so you can add e.g. pop-up electricity.

SEAT CUSHION

Seat cushions provide a seating area where you gladly sit down. Either for a quick meeting or project status briefing, or simply to enjoy a cup of coffee with a colleague.

BACK IN LAMINATE/VENEER

A veneered (oak, beech or birch) back provides the storage unit with an attractive design both on the inside and outside. Laminate backs are also available in various wood finishes or colours.

FABRIC BACK

Fabric-covered back for a softer look. Also pinnable for attaching notes. There are many different colours and fabrics for you to choose in Kinnarps Colour Studio.

BACK WITH WHITEBOARD

Back with whiteboard (white) that provides an accessible and functional surface for writing.

Functions & options

WALL HANGING

Modules with 1P in height can normally be wall-mounted. This also applies to our popular storage module.

CARCASS INTERIORS

Select interiors for the carcasses depending on what you wish to store and how you wish to store it. You can choose between different shelves made of wood or metal, or drawers. Combine with dividers to add colour, shape, feel and new functionality to your storage.

POWERBOX, STRAIGHT OR ANGLED

Powerbox with or without power socket. The Spine solution is created by placing it straight or at an angle between the carcasses. Also available with table integration.

METAL LEGS

Leg underframe in metal, available as round or square. Height 120 mm. Adjustable stabiliser foot.

WOODEN LEGS

Stylish square leg underframe in wood. Height 120 mm. Available in solid oak, ash, birch and beech. Adjustable stabiliser foot.

LEG REDUCTION

The smart leg reduction means that two units share one pair of legs for a stylish look. Available for all our legs in 120 mm height.

CASTORS

Mobile underframe if you need to be able to rearrange and move storage units around. Total height 120 mm. The front two castors are lockable.

WOODEN PLINTH

Plinth in wood. Height 45 mm. Adjustable stabiliser foot.

PLINTH

Metal plinth. Height 45 mm. Adjustable stabiliser foot.

Functions & options

HANDLES

Combine your choice of fronts with handles. You can choose from different finishes, colours and materials.

LOCK

Fit the storage units with high-quality locks for secure storage. Choose between standard locks with keys, cremone bolts, padlocks or combination locks.

LETTER SLOTS

Plastic letter slot (opening dimensions: 265 x 25 mm) to place in front of storage units. Provides practical mail handling for individuals or the department. Adding combination locks is a good idea.

SOFT-CLOSING FUNCTION

Doors and glass doors have hinges with soft closing, which makes the door quieter to close.

GROW

A well-designed flower box, plant holder and divider that makes it easy to create flexible, sustainable solutions and contribute to a healthy working environment.

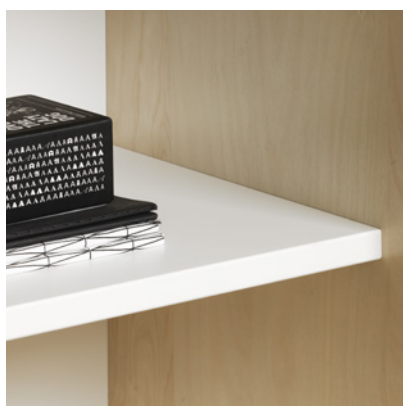

COMPLETE HOLE PATTERN

If you want additional holes to allow you to move shelves, you will need to do this by selecting the complete hole pattern option. The inside of the carcass will then be supplied with holes allowing for flexible insert placement.

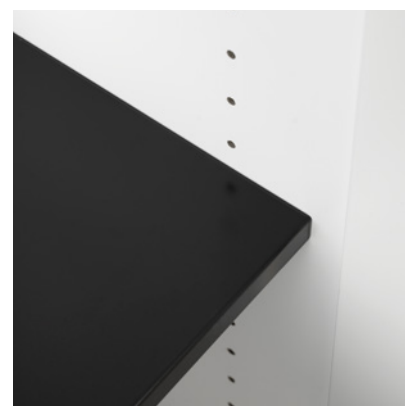

WOODEN SHELF

Choose the required number of shelves for your storage unit. The wooden shelf is available in all our veneers and laminate colours.

REINFORCED WOODEN SHELF

Wooden shelf with added reinforcement to withstand higher loads.

METAL SHELF

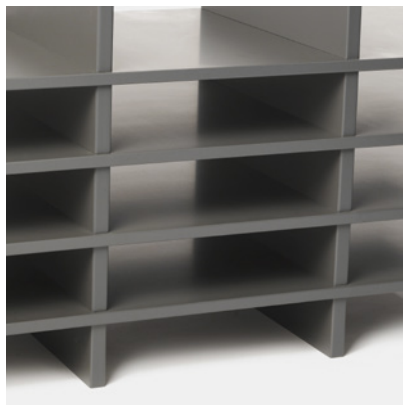

Sturdy metal shelf that withstands heavier loads. Available in black.

Functions & options

CASSETTE

Plastic cassette for A4 forms (with seven compartments) that can be placed in or on cabinets.

POST RACK

Post rack for open storage of post. Available in dark grey laminate.

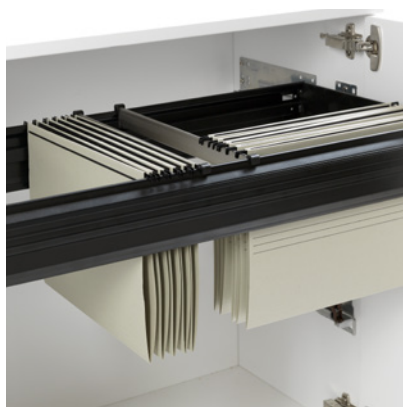

DRAWER INSERT

Storage solution with two drawers for versatile storage. The carcass is white and the fronts are available in laminate, all wood and standard colours and veneer.

LATERAL SHELF

Lateral shelf in black powder-coated metal. This shelf also functions exceptionally well with lateral files which hang under the shelf.

FILING FRAME

Filing frame for suspension files. Available in different sizes.

FILING BASKET/FOLDER PULL-OUT?

Filing basket (black) for A4 suspension files. Extendable and provides organised and clear storage.

BINDER BOOKEND

Steady binder or book support in black powder-coated steel wire. The support is fitted around the front edge of the shelf.

PLASTIC DRAWER

Portable storage box in dark grey plastic. Easy to take with you to keep what you need at hand. Name plate on the ends.

CLOTHES HOOK

Clothes hook in metal with three hooks to hang coats or bags. Can be placed inside cabinets for practical storage of outerwear.

Functions & options

FILING DRAWER

Metal filing drawer (black) that can be placed in cabinets for storage of binders or as a storage box.

TABLETOP STORAGE

Small tabletop storage made from black plastic with compartments for small items such as pens, paper clips or Post-it notes. Also includes an inbuilt tape holder.

RE:FILL DRAWER

Sustainable storage box made from recycled re:fill materials. Provides quiet and soft storage. Can be used as storage in cabinets as well as freestanding.

CABLE MANAGEMENT NET

Generous cable net in black mesh, which is secured under the carcass using screws. Holds cables and plugs in place so that they do not hang down onto the floor and get in the way.

POP-UP POWER SOCKET

Open the pop-up by pressing on it gently to get access to a power socket. Then simply push it down again when it is not in use for a clear and tidy surface.

CABLE DUCT

Practical cable duct in aluminium for floor placement. Gather electrical cables safely between power sockets and storage islands.

Colours & materials

Kinnarps Colour Studio (KCS) is our range of materials for offices, schools and healthcare facilities, with a focus on sustainability, quality and harmony. It offers attractive materials that have been carefully tried and tested for suitability and sustainability in different types of spaces. The wide range makes it easy to find the look and functionality you want. Wood, metal, plastic, and textiles, colours and patterns that are easy to mix and match with each other and the rest of the interior design. A well-thought-out range that provides a harmonised and sustainable overall impression, and makes it possible to choose the right material and the right colour for the right place and activity.
