## QUALITY AND ENVIRONMENTAL LABELLING

### MATERIAL CONTENT

Steel	4,6 kg	65 %
Wood	1,6 kg	23 %
Foam	0,5 kg	7 %
Fabric	0,3 kg	4 %
Plastic	0,1 kg	2 %
<b>Total</b>	<b>7,1 kg</b>	<b>100 %</b>

*Disclaimer: Material content is based on Jig 559 with armrests and wool fabric.*

### RECYCLED MATERIAL

Post-consumer recycled content	0,9 kg	13 %
Pre-consumer recycled content	0 kg	0 %
<b>Total recycled content</b>	<b>0,9 kg</b>	<b>13 %</b>

*Disclaimer: The recycled content is based on Jig 559 with armrests and wool fabric. Numbers may vary based on model and options selected.*

### RECYCLABILITY

Material recycling	65 %
Energy recovery	35 %
<b>Total recyclability</b>	<b>100 %</b>

### TOTAL CO<sub>2</sub>

## FULFILLED TECHNICAL STANDARDS

- EN 16139 Strength, durability and safety, for personnel weight of 110 kg.

## FULFILLED FIRE REQUIREMENTS

- EN 1021-1 Assessment of the ignitability of upholstered furniture – part 1: Ignition source smouldering cigarette, with Kinnarps standard fabrics
- EN 1021-2 Assessment of the ignitability of upholstered furniture – part 2: Ignition source match flame equivalent, with Kinnarps standard fabrics

## CHEMICAL DATA

The product does not contain:

Substances on REACH candidate list of SVHC's above 0,1 % w/w
Substances on Living Building Challenge Red List
Asbestos
Heavy metals
Phthalates
Brominated or halogenated flame retardants
PVC
Hexavalent chromium
Biocides

RECYCLING

See specified recycling list on the next page.

ID	Material	Tools for disassembly	Waste fraction
1	Steel	Screwdriver	Metal
4	Steel	Screwdriver	Metal
5	Steel	Screwdriver	Metal
8	Fabric	No tools needed	Textil
10	PA6	No tools needed	Plastic
11	PA6	No tools needed	Plastic
12	PA6	Screwdriver	Plastic
13	Steel	Screwdriver	Metal
14	Wood	Screwdriver	Combustible waste
15	Foam, Fabric	Screwdriver	Combustible waste
16	Wood	Screwdriver	Combustible waste
17	Foam, Fabric	Knife/Scissors	Combustible waste
20	Steel	Screwdriver	Steel

\*Always consider reusing or repurposing this product before recycling its components

# LEED CONTRIBUTION

The product can contribute to the earning of points within the following credits.

## LEED V 4

### Interior Design and Construction

<p>MR Credit: Interiors life-cycle impact reduction</p>	<p>Kinnarps offers services for recycling, refreshing or reusing products.</p> <p>Share of recyclable material in the product: 65 %</p>
<p>MR Credit: building product disclosure and optimization – sourcing of raw materials</p>	<p>Recycled content: Post-consumer 13 %, Pre-consumer 0 %</p> <p>Manufactured in Kinnarp, Sweden</p>

### Building Design and Construction

<p>MR Credit: building product disclosure and optimization – sourcing of raw materials</p>	<p>Recycled content: Post-consumer 13 %, Pre-consumer 0 %</p> <p>Manufactured in Kinnarp, Sweden</p>
<p>MR Credit: furniture and medical furnishings (healthcare)</p>	<p>The product contains no or less than 100ppm hexavalent chromium, heavy metals, PFCs or PFOA, or added anti-microbial treatments.</p> <p>Recycled content: Post-consumer 13 %, Pre-consumer 0 %</p>

### Building Operations and Maintenance

<p>MR Credit: purchasing— facility maintenance and renovation</p>	<p>The product does not contain any substances on REACH Authorization or Candidate list.</p>

# WELL 2 CONTRIBUTION

The product can contribute to preconditions or the earning of points within the following features.

## Optimizations

X05 Enhanced Material Restrictions	The product is free from halogenated flame retardants, per- and polyfluoroalkyl substances (PFAS), lead, cadmium and mercury.
------------------------------------	---

## PACKAGING AND TRANSPORT

The product is shipped with blankets and cardboard sheets as packaging material that is returned to the factories after delivery and reused. This method saves 270 kg of packaging material per container and enables 50% more products to be transported in each truck. Kinnarps' trucks have a load efficiency of approximately 87% and are run on diesel with renewable content that reduces CO<sub>2</sub> emissions.

## MATERIALS

- **Fabrics:** All of Kinnarps' standard fabrics are free from flame retardants and azo dyes. Kinnarps can also offer multiple fabrics labelled with or fulfilling the requirements of EU Ecolabel and/or Oeko-Tex.
- **Wood:** We use FSC® and PEFC-certified wood material in the production of our products. The origin and legality of all wood material is controlled and assessed in accordance with Kinnarps Timber Trading Policy. All wood boards fulfil high requirements regarding formaldehyde in accordance with TSCA Title VI or half E1.
- **Metal finishing:** Kinnarps use powder coating for surface treatment of metal which gives very low emissions of volatile organic compounds (VOC). For chrome executions, only trivalent chrome is used.
- **Wood finishing:** Kinnarps treats the surface of veneered tables and storage with water based UV-lacquer which ensures very low application quantities of volatile organic compounds (VOC).
- **Plastic:** Plastic components that are used in products produced by Kinnarps are free from PVC and flame retardants, with the exception of some plastic parts of electrical components. The plastic is also free from PFOS, Bisphenol A and phthalates. Plastic components over 100 g are labelled according to ISO 11469.
- **Padding:** The padding in our task chairs is manufactured in Kinnarps' factory in Skillingaryd, Sweden, which enables us to have control over the whole process and ensure a safe production. The padding used in other products is certified with Oeko-Tex. All padding used in Kinnarps' products are free from flame-retardants and azo dyes.
- **Electronics:** Electronic components are CE-labelled and comply with the EU RoHS directive. This prohibits the use of lead, mercury, cadmium and hexavalent chromium, as well as the flame-retardants PDD and PBDE, in electronic products. Conflict minerals are not allowed in the components.
- **Separability:** Separability is taken into consideration in the product development process to facilitate the recycling of material when the products can no longer be used. Different types of material are not cast together in a way that makes it hard to recycle. Products are designed with replaceable parts that are easy to change.
